bloom YELLOW BOTTLES

GROW A

Two-part veg base, part A

WHAT IT IS

GROW A is the nitrate half of GROW, a two-part base nutrient made for the vegetative stages. It is always used in equal parts with GROW B, then swapped for FLOWER A+B at the switch.

HOW IT WORKS

Part A carries the nitrates (potassium, calcium and ammonium nitrate) and EDDHA-chelated iron, kept apart from Part B's phosphates and sulfates so nothing drops out of solution in the concentrate. Pairs with ROOTS and PRE in veg.

DIRECTIONS

Rate	2 ml/L of each part
Timing	Through the vegetative stages
Frequency	Weekly, at each reservoir change
Mixing	Use equal parts A and B. Add each part to the reservoir separately and stir in; never combine the concentrates

DERIVED FROM

Potassium nitrate, calcium nitrate, ammonium nitrate, iron EDDHA
Also contains: 0.004% thiamine hydrochloride (vitamin B1)

AVAILABLE SIZES

1 L · 2.5 L · 15 L

AT A GLANCE

RATE	**2 ml/L of each part**
WINDOW	**Through veg**
PAIRS WITH	**GROW B; FLOWER A+B from the switch**
